I can easily understand something by looking at how it works.

I'm not afraid to ask for help, or to give it. I am a team player, and always will be.

I think very quickly and efficiently in many scenarios. In the past I have astonished people with this.

I also work efficiently, I do the best I can with what work I'm given in the time I have to do it.

## WORK EXPERIENCE

### **Freelance Developer, Online – Web Developer, Front & Back**

I was a freelance web developer from **2020 – 2022**, I would go online, post offerings to make people websites, and add a price tag to them. This involved a lot of interactions with people, and it is where I'd like to think that I came out of my introverted shell.
